

International Journal of Future Computer and Communication

CONTENTS

Volume 2, Number 2, April 2013

Evaluation of Response Time Using Gang Scheduling Algorithm for B2C Electronic Commerce Architecture Implemented in Cloud Computing Environment by Queuing Models.....	71
<i>Riktेश Srivastava</i>	
A Study on the Suitability of Ethernet/IP and EtherCAT for Industrial Time Critical Applications.....	76
<i>P. A. Manoj Kumar and B. Sathish Kumar</i>	
Data Mining Approach in Security Information and Event Management.....	80
<i>Anita Rajendra Zope, Amarsinh Vidhate, and Naresh Harale</i>	
Intelligent Information Retrieval and Recommender System Framework.....	85
<i>Sitalakshmi Venkatraman and Sadhana J. Kamatkar</i>	
Topological Properties of few Poly Oxide, Poly Silicate, DOX and DSL Networks.....	90
<i>F. Simonraj and A. George</i>	
Network Transform – A Tool Based Approach.....	96
<i>Shameemraj M. Nadaf, Hemant Kumar Rath, and Anantha Simha</i>	
Network Traffic Prediction Based on the Wavelet Analysis and Hopfield Neural Network.....	101
<i>Sun Guang</i>	
Load Balanced Optical-Network-Unit (ONU) Placement Algorithm in Wireless-Optical Broadband Access Networks.....	106
<i>Bing Li, Yejun Liu, and Lei Guo</i>	
The Research on Multi-Order Parameters' Stable Value of Electricity Market Operation Efficiency Based on Complex System.....	111
<i>Sun Jingqi, Yan Li, and Li Chunjie</i>	
Design and Implementation of a Mobile Sensor Network Testbed Using SUN SPOTs.....	115
<i>Hung-Da Shih, Xiaolan Zhang, David S. L. Wei, Kshirasagar Naik, and Rung Ching Chen</i>	
Latest Approach to Improve the Protection of Embedded Systems by Using PGP Technique.....	121
<i>P. Rama Bayapa Reddy, K. Soundararajan, and M. H. M. Krishna Prasad</i>	
A Survey of Logic Based Classifiers.....	126
<i>Aftab Ali Haider and Sohail Asghar</i>	
Formal Modelling Languages to Specify Real-Time Systems: A Survey.....	130
<i>Aftab Ali Haider and Aamer Nadeem</i>	
A Survey of Safety Analysis Techniques for Safety Critical Systems.....	134

Aftab Ali Haider and Aamer Nadeem

CDMA Based Reversible and Blind Watermarking Scheme for Images.....138

Muhammad Kashif Samee and Jürgen Götze

GUI Testing Techniques: A Survey.....142

Imran Ali Qureshi and Aamer Nadeem

An Economic Simultaneous Localization and Mapping System for Remote Mobile Robot Using SONAR and an Innovative AI Algorithm.....147

Muhammad Muneeb Saleem
