

International Journal of Future Computer and Communication

CONTENTS

Volume 11, Number 2, June 2022

• Mobile Communication and Information Network

An Extension of Active Access-Point Configuration Algorithm to IEEE 802.11n and 11ac Dual Interfaces in Wireless Local-Area Network18

Sujan Chandra Roy, Nobuo Funabiki, Kwenga Ismael Munene, Md. Mahbubur Rahman, and Minoru Kuribayashi

Future Integrated Mobile Communication Systems — An Outlook towards 6G27

Christoph Fischer, Dennis Krummacker, Maximilian Berndt, and Hans D. Schotten

• Computer Theory and Engineering

Interpretability of Deep Learning34

Zhenlin Huang, Fan Li, Zhanliang Wang, and Zhiyuan Wang

A Proposal of Job-Worker Assignment Algorithm Considering CPU Core Utilization for User-PC Computing System40

Ariel Kamoyedji, Nobuo Funabiki, Hein Htet, and Minoru Kuribayashi

Proposal for Knowledge Community Application Using Bluetooth Low Energy47

Nanami Kuwahara and Takayuki Fujimoto
