International Journal of Future Computer and Communication

CONTENTS

Volume 4, Number 4, August 2015

- **Communication Systems and Internet of Things Applications**

A Novel Concatenated Code for Fading Channel.....221
Ying Huang, Jing Lei, Baoguo Li, and Erbao Li

Group Switch-and-Stay Combining with Branch Partition for Space Diversity.....226
Yawgeng A. Chau and Mostafa Al-Harbawi

Hysteresis Margin and Load Balancing for Handover in Heterogeneous Network.....231
Ranada Prasad Ray and Lun Tang

A Survey of Routing Protocols for Ad Hoc Networks Based on Update Mechanism.....236
Ruaa A. S. Alsabah, Ali A. J. Al-Sabbag, and H. Alzorghani

Holistic Development of Mobile Applications to Support Manufacturing Processes.....242
Günther Schuh, Martin Pitsch, and Michael Salmen

Preventing Data Loss in Linux-Based EtherCAT Master.....246
Cheol-Jin An, Hyun-Chul Yi, Hyoung-Woo Kim, Sung-Mun Park, and Joon Young Choi

Internet of Things: Smart Things.....250
Somayya Madakam

The Impact of Existing and Future Mobile Technologies on Pakistan: A Survey.....254
Hamid Asmat and Sultan Ullah

Design of ZeroMQ-Based Cooperative Simulation Framework for Distributed Code and Model Components
.....258
Sunghee Lee, Heungjun Park, and Woo Jin Lee

Flatness Error Evaluation of the Satellite Antenna.....262
Tengda Liu, Chunjie Wang, and Bingjie Wang

Doppler Compensation Based on Recursive Block for Wireless Communication.....266
Chan-Ho Hwang and Ki-Man Kim

- **Computer Network and Image Processing**

A New Fragile Watermarking Scheme Based on Wavelet Edge Feature.....270
Krisda Khankasikam

Development of Faint Motion Recognition System Based on Improved Objects Tracking Method from Thermal Camera Images.....275
Hanbyul Chae, Juhyun Lee, and Kicheon Hong

A Novel Incremental Instruct Dynamic Intrusion Detection System Using PSO-RBF.....280
M. V. Siva Prasad and Ravi Gottipati

Model of Cloud Video Surveillance Based on Network Coding Cloud Storage System…….....286
Qingzhuang Zhao, Kun Li, Hui Li, Yunmin Wang, and Haipeng You
