

International Journal of Future Computer and Communication

CONTENTS

Volume 5, Number 1, February 2016

• Computer and Information Technology

Integrating Biometrics into Police Information Management System: A Case of Zambia Police.....1
G. Lyoko, J. Phiri, and A. Phiri

A New Clustering Algorithm Based on Ward_PAM.....8
Hongmei Nie

A Method for Biometric Recognition of Ultrasound Palmprint Based on Principal Lines.....13
Antonio Iula and Donatella Nardiello

Character Mapping for Cross-Language.....18
Mazin Al-Shuaili and Marco Carvalho

The Effects of Sharing Know-How Method Based on Experiences in Large-Scale Data Center.....23
Hiroyuki Nishino and Mikifumi Shikida

Socio-Cyberphysical System for Parking Support.....27
Alexander Smirnov, Nikolay Shilov, and Oleg Gusikhin

Enterprise Networking Modeling Based on Knowledge Management for Family Enterprises.....33
Víctor Hugo Medina Garcá, Angie Elizabeth Sánchez, and Alexis Ortiz Morales

Conveying Gaze-Awareness by Using a Faint Light with a Video-Conferencing System.....38
Mikifumi Shikida

The Role of Head Nurse on Communication: A Social Network Approach.....43
Chia-Hui Wang, Kathryn Anthony, and Nai-Wen Kuo

• Communication Engineering

Study and Analysis of Cloud Aided Remote Sensing Multiprocessing System (CARMS) with Task Allocation
.....47
M. Zubair khan, Geeta Devi, and Yasser M. Alginahi

Performance of Parallel Interference Cancellation Scheme in VW-OCDMA Systems.....53
Wei Liang, Jun Li, Yi Zhang, Jingling Li, and Jiayuan Wei

Performance Evaluation of AODV, DSR, OLSR, and GRP MANET Routing Protocols Using OPNET.....57
Adel Aneiba and Mohammed Melad

A TOA Cooperate with AOA Location Algorithm Based on IR-UWB.....61
Zhihao Wang, Chong Shen, Gaoang Feng, and Chunhua Long

Optical Managing Project — Effectively Survivability and Monitoring System.....66

A. Premadi, A. Effendi, and B. Antonov
