International Journal of Future Computer and Communication

CONTENTS

Volume 5, Number 2, April 2016

- **Mobile Communication and Wireless Technology**

Small Range High Precision Positioning Algorithm Based on Improved Sinc Interpolation……...70
Zhengping Li, Chaoliang Qin, Yongmei Zhang, Li Ma, and Changliu Niu

A Web-Based Student Support Services System Integrating Short Message Service Application Programming Interface.....77
Maria Concepcion S. Vera and Benilda Eleonor V. Comendador

Cloud Computing-Based Faculty ePortfolio and Evaluation System (COMFORTES).....83
Belen M. Tapado and Benilda Eleonor V. Comendador

Analysis of Spectrum Licensing for Mobile Service in the Frequency Band of 900 MHz and 1800 MHz in Thailand.....89
Settapong Malisuwan, Dithdanai Milindavanij, Jesada Sivaraks, and Wassana Kaewphanuekrungsi

Interference and Mobility-Aware Routing Scheme Based on Reinforcement Learning.....94
Jae-Joon Lee and Jinsuk Kang

Adaptive Detection of Hello Flood Attack in Wireless Sensor Networks.....99
H. Khosravi, R. Azmi, and M. Sharghi

Customer Value Analysis for Telecom Industry Based on Data Mining.....104
Xiaoyong Liu and Hui Fu

Study of Recognition Algorithm for Core Node in KAD Network Based on BP Model…….....108
Li Qiang, Tang Bo, and Yang Jie

- **Information Theory**

Analysis the Structure of SAM and Cracking Password Base on Windows Operating System…….112
Jiang Du and Jiwei Li

Estimation of Interleaving Period for Reed-Muller Coded Signals……116
Yeonsoo Jang, Jinwoo Jeong, Hyeongyong Lim, and Dongweon Yoon

- **Computer Application Technology**

Modeling RTCA DO-178C Specification to Facilitate Avionic Software System Design, Verification, and Validation…….....120
Emanuel S. Grant and Tanaya Datta

Investigation of DNN-Based Keyword Spotting in Low Resource Environments.....125
Kaixiang Shen, Meng Cai, Wei-Qiang Zhang, Yao Tian, and Jia Liu

RFID Integrated Computer-Aided Laboratory Support Services (RFID ICLASS).....130
Joy V. Santelices and Benilda Eleonor V. Comendador
