

# International Journal of Future Computer and Communication

## CONTENTS

---

---

### Volume 8, Number 2, June 2019

Reduce RSSI Variance for Indoor Localization System Using Frequency Analysis .....	34
<i>Piyapan Suwannawach and Sorawat Chivapreecha</i>	
A Reliable and Efficient Stress Generation and Control System .....	39
<i>Yan Gong and Lin Huang</i>	
Vision-Based Parking Guidance and Obstacle Detection System .....	44
<i>Din-Chang Tseng and Yu-Chi Lin</i>	
PVRotate: An Improved Vibration-Based User Authentication Method .....	50
<i>Yutaka Hirakawa, Fumiya Hirose, and Isao Sasano</i>	
A Network Configuration Optimization Algorithm for Wireless Local-Area Network with Three Raspberry Pi Access-Points under Concurrent Communications.....	55
<i>Mousumi Saha, Nobuo Funabiki, Rahardhita Widyatra Sudibyo, Sumon Kumar Debnath, Md. Manowarul Islam, Minoru Kuribayashi, and Wen-Chung Kao</i>	
Improvement the Imbalanced Data Classification with Restarting Genetic Algorithm for Support Vector Machine Algorithm.....	63
<i>Keerachart Suksut, Nuntawut Kaoungku, Kittisak Kerdprasop, and Nittaya Kerdprasop</i>	
Modelling and Simulation on Traffic Emergency Response Based on Unity3D.....	68
<i>Muhammad Aziz ur Rehman and Huang Yan Yan</i>
